About Verité:

Verité is an Amherst-based nonprofit and award-winning pioneer in the social auditing, training, research, and consulting field. The organization has over 20 years of experience working with Fortune 500 corporations and their local suppliers through our global network of NGO partners. Verité works in over 70 countries to empower companies, factories, NGOs, governments, and workers to create sustainable workplace practices in the factories and communities where our consumer goods are made and the raw materials that go into them are sourced.

Internship:

Verité interns do interesting and substantive work and are exposed to the vast world of corporate social responsibility (CSR) and human rights. They contribute to a variety of research projects addressing forced labor, human trafficking, and human rights abuses worldwide. Interns perform tasks such as conducting desk research, updating various databases that Verité maintains, completing various administrative tasks, drafting reports, and proofreading texts. Research interns will read and analyze reports published by the U.S. Department of State, the U.S. Department of Labor, and the International Labour Organization (ILO) and become familiar with the work of these entities as well as the work of many different stakeholders. Interns will support our work with brands and our large-scale federally funded research projects across supply chains, sectors, and commodities. Interns may assist on a number of Verité projects and are not limited to only the projects detailed below.
